

AMENDMENTS TO THE CLAIMS

The following listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-50: (Canceled).

Claim 51 (Currently amended): A composition comprising two or more berry extracts selected from the group consisting of blueberry (*Vaccinium L*) extract, bilberry (*Vaccinium bracteatum*, *Vaccinium caespitosum*, *Vaccinium deliciosum*) extract, cranberry extract, elderberry extract, raspberry extract and strawberry extract, wherein the composition has a higher antioxidant capacity than any one berry extract used in the composition.

Claim 52 (Previously Presented): The composition in claim 51, wherein the composition has a higher oxygen radical absorbance capacity than the oxygen radical absorbance capacity of any one berry extract used in the composition.

Claim 53 (Currently amended): The composition in claim 51, wherein the composition has an oxygen radical absorbance capacity above 40 ~~Troxel~~ micromoles of Trolox equivalents (TE) /gram fresh weight basis.

Claim 54 (Currently amended): The method of administering a composition comprising two or more berry extracts selected from the group consisting of blueberry (*Vaccinium L*) extract, bilberry (*Vaccinium bracteatum*, *Vaccinium caespitosum*, *Vaccinium deliciosum*) extract, cranberry extract, elderberry extract, raspberry extract and strawberry extract, wherein the composition has a higher antioxidant capacity than any one berry extract used in the composition, wherein the composition is administered in a range of approximately 18 to 270 milligrams per dose.

Claim 55 (Previously presented): The method of claim 54, where in the composition is administered in pill, powder, liquid, food or beverage form.

Claim 56 (Previously presented): The method of claim 54, where in the composition is administered as a dietary supplement, food, beverage or drug.

Claim 57 (Previously presented): The method of claim 54, where in the composition is administered in foods or beverages at a concentration of approximately 0.001 to 25% by weight of the total weight of said food or beverage.

Claim 58 (Withdrawn): A composition comprising of two or more berry extracts selected from the group consisting of blueberry, bilberry, cranberry, elderberry, raspberry, strawberry, blackberry, dewberry, boysenberry, loganberry, youngberries, currant, gooseberry, juniper berry, huckleberry, elderberry, thimbleberry, blackcap berry, mountain ash berry, salmonberry and other berry extracts, wherein the composition has a high oxygen radical absorbance capacity.

Claim 59 (Withdrawn): The composition in claim 58, wherein the composition has a higher oxygen radical absorbance capacity than any one berry extract used in the composition.

Claim 60 (Withdrawn): The composition in claim 58, wherein the composition has an oxygen radical absorbance capacity above 40 Trolox equivalents/gm fresh weight basis.

Claim 61 (Withdrawn): The composition of claim 58, wherein the composition is administered in a range of approximately 18 to 270 milligrams per dose.

Claim 62 (Withdrawn): The composition in claim 58, where in the composition is administered in pill, powder, liquid, food or beverage form.

Claim 63 (Withdrawn): The composition in claim 58, where in the composition is administered as a dietary supplement, food or beverage.

Claim 64 (Withdrawn): The composition in claim 58, where in the composition is administered in foods or beverages at a concentration of approximately 0.001 to 25% by weight of the total weight of said food or beverage.

Claim 65 (Withdrawn): A composition comprising of two or more berry extracts selected from the group consisting of blueberry extract, bilberry extract, cranberry extract, elderberry extract, raspberry extract and strawberry extract, wherein the composition has a higher antioxidant capacity than any one berry extract used in the composition.

Claim 66 (Withdrawn): The composition of claim 65, wherein the blueberry extract is a wild blueberry extract, the bilberry extract is a wild bilberry extract and the raspberry extract is a raspberry seed extract.

Claim 67 (Withdrawn): The composition of claim 65, wherein the composition by weight is approximately 50% blueberry extract, 35% strawberry extract, 7.5% cranberry extract, 2.5% raspberry extract, 2.5% elderberry extract and 2.5% bilberry extract.

Claim 68 (Withdrawn): The composition of claim 65, wherein the composition by weight is approximately 50% blueberry extract, 25% strawberry extract, 12.5% bilberry extract and 12.5% raspberry extract.

Claim 69 (Withdrawn): The composition in claim 65, wherein the composition has a higher oxygen radical absorbance capacity than any one berry extract used in the composition.

Claim 70 (Withdrawn): The composition in claim 65, wherein the composition has an oxygen radical absorbance capacity above 40 Trolox equivalents/gm fresh weight basis.

Claim 71 (Currently amended): The composition of claim 51, wherein the composition by weight is approximately 50% blueberry (*Vaccinium L*) extract, 35% strawberry extract, 7.5% cranberry extract, 2.5% raspberry extract, 2.5% elderberry extract and 2.5% bilberry (*Vaccinium bracteatum*, *Vaccinium caespitosum*, *Vaccinium deliciosum*) extract.

Claim 72 (Currently amended): A composition comprising two or more berry extracts selected from the group consisting of blueberry (*Vaccinium L*) extract, bilberry (*Vaccinium bracteatum*, *Vaccinium caespitosum*, *Vaccinium deliciosum*) extract, raspberry extract and strawberry extract, wherein the composition has a higher antioxidant capacity than any one berry extract used in the composition.

Claim 73 (Previously presented): The composition in claim 72, wherein the composition has a higher oxygen radical absorbance capacity than the oxygen radical absorbance capacity of any one berry extract used in the composition.

Claim 74 (Currently amended): The composition in claim 72, wherein the composition has an oxygen radical absorbance capacity above 40 ~~Troxol~~ micromoles of Trolox equivalents (TE) /gram fresh weight basis.

Claim 75 (Currently amended): The composition of claim 72, wherein the composition by weight is approximately 50% blueberry (Vaccinium L) extract, 25% strawberry extract, 12.5% bilberry (Vaccinium bracteatum, Vaccinium caespitosum, Vaccinium deliciosum) extract, and 12.5% raspberry extract.

Claim 76 (Currently amended): A composition comprising two or more berry extracts selected from the group consisting of wild blueberry (Vaccinium L) extract, wild bilberry (Vaccinium bracteatum, Vaccinium caespitosum, Vaccinium deliciosum) extract, cranberry extract, elderberry extract, raspberry seed extract and strawberry extract, wherein the composition has a higher antioxidant capacity than any one berry extract used in the composition.

Claim 77 (Previously presented): The composition in claim 76, wherein the composition has a higher oxygen radical absorbance capacity than the oxygen radical absorbance capacity of any one berry extract used in the composition.

Claim 78 (Currently amended): The composition in claim 76, wherein the composition has an oxygen radical absorbance capacity above 40 ~~Troxol~~ Trolox equivalents/gram fresh weight basis.

Claim 79 (Currently amended): The composition of claim 76, wherein the composition by weight is approximately 50% wild blueberry (Vaccinium L) extract, 35% strawberry extract, 7.5% cranberry extract, 2.5% raspberry seed extract, 2.5% elderberry extract and 2.5% wild bilberry (Vaccinium bracteatum, Vaccinium caespitosum, Vaccinium deliciosum) extract.

Claim 80 (Currently amended): A composition comprising two or more berry extracts selected from the group consisting of wild blueberry (Vaccinium L) extract, wild bilberry (Vaccinium bracteatum, Vaccinium caespitosum, Vaccinium deliciosum) extract,

raspberry seed extract and strawberry extract, wherein the composition has a higher antioxidant capacity than any one berry extract used in the composition.

Claim 81 (Previously presented): The composition in claim 80, wherein the composition has a higher oxygen radical absorbance capacity than the oxygen radical absorbance capacity of any one berry extract used in the composition.

Claim 82 (Currently amended): The composition in claim 80, wherein the composition has an oxygen radical absorbance capacity above 40 ~~Troxol~~ micromoles of Trolox equivalents (TE) /gram fresh weight basis.

Claim 83 (Currently amended): The composition of claim 80, wherein the composition by weight is 50% wild blueberry (*Vaccinium* L) extract, 25% strawberry extract, 12.5% wild bilberry (*Vaccinium bracteatum*, *Vaccinium caespitosum*, *Vaccinium deliciosum*) extract and 12.5% raspberry seed extract.
